

## Compose Characters

The tables at the end of this manual describe how to compose characters for the Multinational and ISO Latin 1 character sets for a VT keyboard.

<b>In the tables, column ...</b>	<b>Represents ...</b>
◆	Characters to be composed.
3-□	A three-stroke key sequence beginning with the Compose key.
2-□	A two-stroke key sequence beginning with a non-spacing diacritical accent key.

  

<b>Within the tables...</b>	<b>Represents ...</b>
(sp)	A space character.

Canadian-English Danish, Dutch, Hebrew, Hungarian, Italian, Norwegian, Polish, Romanian, Russian, SCS, Turkish-F, Turkish-Q, UK, and US keyboards do not have non-spacing diacritical marks regardless of the character mode.
