

BY BOUNDLESS TECHNOLOGIES

Dorio VGB-10 Single Session Monochrome Text Terminal

Designed by DEC and built by Boundless - more than 6 million VT terminals are installed worldwide

Sixteen terminal emulations including most WYSE emulations®

High reliability backed by our 3 year warranty

The leader in the ANSI text terminal marketplace

The Dorio 10 single-session, monochrome text terminal offers high quality, reliability, ergonomic design, and plug and play compatibility— all at a very low price.

Just what does plug-and-play compatibility mean? It means that the Dorio 10 terminal works in all computing environments where popular ASCII, ANSI and PCTERM terminal are used today.

The **Dorio 10** emulation set includes the DEC VT100, VT220, VT320, VT420 and Wyse WY-50/50+/55, WY-60/160, WY-120/150. The Dorio 10 terminals are ideal replacements for customers previously using Wyse display terminals in their applications. The **Dorio 10** is a low cost single session terminal for the open enterprise.

Built in the Boundless "JIT" manufacturing facility in western NY allows rapid delivery of any terminal in any configuration. You can select the VT terminal of your choice in any phosphor color with any keyboard with the assurance that your order will be delivered quickly.

Boundless backs its Dorio 10 Terminal with a money back guarantee and a 3 year warranty.

Our focus on providing custom desktop solutions to our customers has made Boundless the client choice of every major server manufacturer for the last 30 years.
